DEVANG PATEL Nadiad, Gujarat 387001, India +91-9157853953 | devangp0308@gmail.com
[linkedin.com/in/devang-patel-44881924b](https://www.linkedin.com/in/devang-patel-44881924b) | github.com/22aiml031 EDUCATION CHARUSAT Changa, Gujarat Bachelor of Technology in Artificial Intelligence & Machine Learning; CGPA 8.75
2022 – 2026 Bharatiya Vidya Bhavan's Gujarat Higher Secondary Certificate (H.S.C.); 81% 2020 – 2022 TECHNICAL SKILLS Languages: Python, SQL, R, JAVA, C, C++, HTML, CSS, Bootstrap ML/AI Frameworks: TensorFlow, PyTorch, scikit-learn, NumPy, Pandas, Transformer Models, Large Language Models Tools & Technologies: Docker, Git, Django, Vector Databases, NLP Libraries, ROC-AUC Evaluation Core Competencies: Natural Language Processing, Computer Vision, Model Evaluation, ML Pipeline Development, Data Analytics PROFESSIONAL EXPERIENCE AI/ML Intern December 2025 – Present Esparse Matrix Solutions Pvt. Ltd. Pune, India • Engineered AI-driven analytics systems for research automation and skill-gap analysis, processing large-scale datasets (CSV, Excel, PDFs) with 100% pipeline reliability and delivering actionable insights for academic planning • Implemented NLP and transformer-based embeddings for semantic understanding, achieving efficient clustering and classification of research papers and resumes with high accuracy • Developed vector-based retrieval and search mechanisms enabling topic-wise exploration with sub-second query response times, significantly improving information discovery efficiency • Conducted comprehensive trend analysis and research gap identification by mapping user profiles to O*NET industry requirements, generating AI-powered readiness scores and structured reports AI/ML Freelancer December 2025 – January 2026 Bespoke Labs Mountain View, CA (Remote) • Built and optimized production-grade ML pipelines using Python, NumPy, Pandas, and scikit-learn, implementing rigorous model evaluation protocols to ensure reliability in real-world environments • Performed comprehensive model evaluation using ROC-

AUC, accuracy metrics, and consistency checks, iterating based on feedback to exceed performance thresholds by 15% • Configured and debugged Docker-based ML environments, resolving critical infrastructure issues including API connectivity and containerized workflow optimization, reducing deployment time by 30% • Collaborated asynchronously on automated evaluation systems with production-like graders, documenting progress and adapting quickly to evolving requirements while maintaining code quality Python Developer May 2024 – June 2024 Techmicra IT Solutions Ahmedabad, Gujarat • Developed Django-based web applications contributing to innovative software development projects, applying full-stack development principles • Implemented software engineering best practices in program creation, code optimization, and collaborative development workflows KEY PROJECTS Drug RAG Assistant 2025 • Built an AI-powered medical question-answering system using RAG + FAISS vector search for semantic retrieval • Integrated structured drug datasets to deliver accurate dosage, usage, and side-effect information with real-time response optimization • Combined keyword filtering and embedding similarity to enhance retrieval accuracy and relevance for medical queries UCF101 Action Recognition 2025 • Developed an action recognition pipeline using ResNet, GoogLeNet, Inception, MobileNet + LSTM on the UCF101 dataset • Implemented real-time inference with YOLOv8/11 variants and custom video-frame preprocessing, improving model accuracy by 22% • Optimized processing efficiency through advanced preprocessing techniques, achieving 82% classification accuracy across 15 activity classes Task Management and Notification App 2024 • Created a cross-platform task management app using Flutter with Shared Preferences for local storage • Designed a clean UI for task tracking and automated notifications, improving user productivity and task completion rates • Implemented efficient state management and local data persistence for seamless offline functionality Human Action Recognition 2023 • Engineered a classification system for 15 human action classes using advanced image-processing and ML techniques • Boosted prediction accuracy through optimized feature extraction, demonstrating strong fundamentals in computer vision CERTIFICATIONS & ADDITIONAL INFORMATION Certifications: IBM Data Science Professional Certification (12 Courses - Coursera, Aug 2025) Machine Learning with Python (IBM) Data Analysis with Python (IBM) Databases and SQL for Data Science with Python (IBM) Foundation in Python, Data Analysis, AI, and SAP Chatbots (Code Unnati) Fundamentals of Red Hat Enterprise Linux 9 Languages: English (Fluent), Hindi (Fluent), Gujarati (Native)

▼ Extracted Skills

Python, JAVA, TensorFlow, Docker, Machine Learning, Data Analysis, C++, PyTorch, scikit-learn, Git, HTML, NLP, CSS, SQL

▼  Experience Level

AI/ML Intern

Recommended Jobs:

AI Engineer - Experienced

Skills: Python, Java, C++, R, Deep Learning, Reinforcement Learning, NLP, Computer Vision, Generative AI, LLMs, TensorFlow, PyTorch, Scikit-learn, Hugging Face Transformers, ONNX, AWS, GCP, Azure, CI/CD, MLOps, Apache Spark, Hadoop, Docker, Kubernetes, Model Monitoring, SHAP, LIME

Experience Level: Mid-Senior Level

Match Score: 58%

AI Engineer - Fresher

Skills: Python, Java, C++, R, Supervised/Unsupervised Learning, Regression, Classification, Clustering, TensorFlow, PyTorch, Keras, Scikit-learn, Neural Networks, OpenCV, NLTK, Pandas, NumPy, SQL, MongoDB

Experience Level: Entry-Level

Match Score: 57%

Machine Learning Engineer - Fresher

Skills: Python, R, Java, ML fundamentals: supervised/unsupervised learning, regression, classification, clustering, decision trees, Data preprocessing, Feature engineering, ML frameworks: Scikit-learn, TensorFlow, PyTorch, Keras, Statistics: probability, linear algebra, Data visualization: Matplotlib, Seaborn, Git/GitHub

Experience Level: Fresher

Match Score: 57%

AI Engineer - Fresher

Skills: Python, Java, C++, R, Supervised/Unsupervised Learning, Regression, Classification, Clustering, TensorFlow, PyTorch, Keras, Scikit-learn, Neural Networks, OpenCV, NLTK, Pandas, NumPy, SQL, MongoDB, NoSQL

Experience Level: Entry-Level

Match Score: 57%
